

# With SMARTOP™

## Save money, Work Safely & Protect gas quality

**Save time**  
- Instant opening and closing of the valve  
- Easy handling and moving of the cylinder with the ergonomic cap

**Save gas**  
- Prevent gas loss with the on/off lever  
- Check content with permanent pressure gauge

**Work safely**  
- Emergency cut-off  
- Protected valve

**Protect your gas quality**  
RPV-NRV protects gas quality (\*\*)

A world leader in gases, technologies and services for Industry and Health, Air Liquide is present in 80 countries with approximately 67,000 employees and serves more than 3.7 million customers and patients. Oxygen, nitrogen and hydrogen are essential small molecules for life, matter and energy. They embody Air Liquide's scientific territory and have been at the core of the company's activities since its creation in 1902.

# Smart, simple, unique

SMARTOP is Air Liquide's trademark 04-2020

# SMARTOP™

## The clever valve

### On/off levers

- Easy opening
- Immediate gas cut-off
- Check if the valve is open or closed at a glance
- Double action opening for additional safety (\*)
- Low flow lever to allow for purge (\*)

### Permanent content gauge

- At a glance content monitoring
- Get a reading even when levers are in closed position

### RPV/NRV function (\*\*)

- Maintain a minimal pressure in the cylinder
- No back-flow contamination during use and storage

### Ergonomic cap

- Easy handling of the cylinder
- Permanent, reliable protection for the valve

## Instructions

- 1** Check the content gauge for cylinder pressure and that levers are off

- 2** Back off the regulator and connect it to SMARTOP™

- 3** Open slowly the on/off levers

- 4** Set the outlet flow rate or pressure on your regulator

(\*) For SMARTOP equipped with double on-off levers: 1. Orange clutch lever with partial opening **except for acetylene version**. 2.Red for full opening.

(\*\*) Residual Pressure Valve and Non Return Valve **except for acetylene version**.
