

With **EXELTOP™** focus on your own performance

Gain performance

Intuitive to use - ensures accurate and stable gas flow.

Save money

No need to buy and maintain a separate regulator - regular checks by Air Liquide.

Work safely

Emergency cut-off – Protected valve – No more exposure to high pressure gas flow.

Save time

Ready to use due to the built-in regulator and on/off lever- quick connect available for all gases.

Save gas

No gas loss thanks to the on/off lever - check content at a glance with the permanent pressure gauge.

EXELTOP™

ensure superior results

Advanced two-stage built-in regulator

- No need to buy a separate regulator
- No more exposure to high pressure gas flow
- Accurate outlet pressure or flow rate
- Precise setting with a new graduated handwheel

Quick connect system

- Available for all gases
- Simply connect the hose and get to work

Ergonomic and shock-absorbing cap

- Easy handling
- Simple access to all functions
- Permanent, reliable protection for the valve and regulator

Newly designed on/off lever

- Immediate gas cut-off
- On/off status at a glance

Permanent content gauge

- At a glance content monitoring
- Get a reading even when flow is stopped

Instructions

1 Connect the hose

2 Check that the graduated handwheel is at zero

3 Open the on/off lever

4 Set the outlet pressure or flow rate

5 You are ready to go!

Check the instruction manual for detailed information
